PROFESSIONAL SUMMARY

Frontend Developer with 3.9 years of experience building responsive, user-centric web applications using HTML5, CSS3, Bootstrap, JavaScript, React.js, and Git. Skilled in translating Figma designs into pixel-perfect, reusable, and accessible interfaces, and in collaborating with cross-functional teams in Agile environments. Strong UI/UX background covering responsive design, component-based development, design systems, and end-to-end delivery from wireframe to deployment.

PROFESSIONAL EXPERIENCE

UI/UX Designer & Frontend Developer | Digient Technologies

APR 2022– JAN 2026

- Developed responsive web interfaces using HTML5, CSS3, Bootstrap, JavaScript, and React.js for gaming and entertainment platforms.
- Converted Figma designs into pixel-perfect, reusable, and responsive React components.
- Built mobile-first, cross-browser compatible user interfaces following modern frontend best practices.
- Collaborated with designers, backend developers, QA engineers, and product managers in Agile development cycles.
- Managed source code using Git for version control, collaboration, and branch management.
- Designed reusable UI components, design systems, dashboards, and CMS interfaces using Figma.
- Created wireframes, prototypes, UI specifications, and developer handoff documentation for seamless implementation.
- Participated in sprint planning, testing, bug fixing, and feature releases to ensure high-quality product delivery.
